

Application No. [appln. no.]

- 2 -

November 22, 2005

The Applicant further elects the species of Figures 1 to 3, with traverse. As in the case of the claims, the invention resides in the holder shown in Figures 1 to 7 (it is noted that the holder shown in Figure 7 is essentially identical to the holder shown in Figures 1 to 3 with the sole exception of an advertising panel 26). The embodiment illustrated in Figures 4 to 6 has a slightly different housing, but nevertheless embodies the same invention.

To summarize, the applicant elects the claims categorized by the Examiner in Group 1, and the species categorized by the Examiner as Figures 1-3. However, both elections are made with traverse for the reasons given.

Favourable examination is respectfully requested.

Executed at Toronto, Ontario, Canada, on November 22, 2005.
